DEVELOPING DIGITAL HEALTH SOLUTIONS
WITH AND FOR OPEN SCIENCE

You signed up for a Hackthon, what now?

Welcome to the exhilarating world of hackathons! Imagine a high-energy, collaborative event where creative minds from various backgrounds converge to tackle real-world challenges using technology. Here, you'll immerse yourself in a whirlwind of innovation, and problem-solving. Get ready to transform ideas into reality, compete with your peers, and bring fresh solutions to the forefront. It's not just a challenge; it's an opportunity to showcase your skills, learn, and create something amazing. So, fasten your seatbelts and embrace the hackathon adventure!

**We asked google "Preparing for your first no-code hackthon",
and of course google had an answer:**

<https://workspace.google.com/blog/developers-practitioners/no-code-hackathon-tips-and-best-practices>

Prepare for an exciting 24-hour hackathon! Discover how to stay sane and supercharged with creativity and innovation in the upcoming article. Join us on this thrilling journey!
