Think Design!

Design thinking is like a superpower for problem solvers. It's an exhilarating journey that starts by deeply understanding people's needs and desires. Then, it transforms those insights into groundbreaking solutions through brainstorming, rapid prototyping, and real-world testing. This approach doesn't just solve problems; it sparks creativity and empowers you to craft solutions that resonate with the world. It's an adventure that promises to unleash your inner innovator.

What is design thinking and why is it important?
